NEW YORK STATE DEPARTMENT OF HEALTH Instructions and Resources for WIC Medical Documentation Form

Federal policy limits the issuance of certain formulas to medically fragile participants with qualifying medical conditions.

Use this form to request exempt formulas, WIC-Eligible Nutritionals, standard formulas for infants unable to tolerate solid foods, and supplemental foods for patients with qualifying medical conditions. If you have questions or need additional clarification, please contact the WIC agency where your patient is receiving WIC benefits. A directory of New York WIC agencies can be found at: http://www.health.ny.gov/prevention/nutrition/wic/local_agencies.htm.

WIC agency staff will review and fill requests for formulas and supplemental foods according to federal regulations and New York WIC program policies and procedures. WIC may require additional documentation for prescription approval if diagnoses are missing, incomplete, non-specific, or inconsistent with anthropometric data. WIC agency staff may contact you if further clarification is needed.

RENEWAL OF THIS FORM REQUIRED PERIODICALLY

- Weight consistently below the 3rd percentile for age;
- Weight less than 80% of ideal weight for height/age;
- Progressive fall-off in weight to below the 3rd percentile; or
- A decrease in expected rate of growth along the child's previously defined growth curve irrespective of its relationship to the 3rd percentile.

WIC measures heights and weights on participants to monitor their growth. Copies of CDC growth charts used by WIC can be found at: http://www.cdc.gov/growthcharts.
